## Water Connection

Distance from a water source to the new home

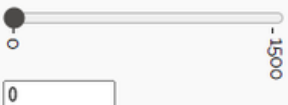

## Waste Water Type

Choose to connect to a WasteWater source

- Connect to an existing Septic/Sewer - \$0
- Pristine EcoWater System, an advanced wastewater treatment system - \$17,360
- New Septic System Assessment & Engineering - \$6,500 (A separate quote for the system itself will be provided)

## Waste Water Connection

Distance from new home to existing wastewater connections

## Electrical Connection Type

Choose to either connect to the main panel or go off-grid with a backup source

- Main Panel Upgrade to 225 amp busbar capacity - \$3,450 (Note: state law requires a 225 amp busbar listed on the panel rating)
- Off Grid Solar/Battery/Inverter w/ main panel backup - \$19,350
- Off Grid Solar/Battery/Inverter w/ generator backup - \$20,610

## Electrical Connection Length

Measure the distance from where you want the new home to your electric service (if you choose one of the battery system options set this to zero)

## Delivery

Look up the distance to your home from 1801 Santa Clara, Fresno
