Water Connection

Distance from a water source to the new home

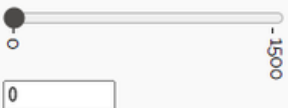

Waste Water Type

Choose to connect to a WasteWater source

- Connect to an existing Septic/Sewer - \$0
- Pristine EcoWater System, an advanced wastewater treatment system - \$17,360
- New Septic System Assessment & Engineering - \$6,500 (A separate quote for the system itself will be provided)

Waste Water Connection

Distance from new home to existing wastewater connections

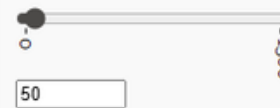

Electrical Connection Type

Choose to either connect to the main panel or go off-grid with a backup source

- Main Panel Upgrade to 225 amp busbar capacity - \$3,450 (Note: state law requires a 225 amp busbar listed on the panel rating)
- Off Grid Solar/Battery/Inverter w/ main panel backup - \$19,350
- Off Grid Solar/Battery/Inverter w/ generator backup - \$20,610

Electrical Connection Length

Measure the distance from where you want the new home to your electric service (if you choose one of the battery system options set this to zero)

Delivery

Look up the distance to your home from 1801 Santa Clara, Fresno
